Testimonial for Rob Vickers of Grow Well Gardens

On Wednesday morning I sat with Rob and asked him to become my set construction manager for the advert we filmed on Saturday. He quickly reminded me it was a bank holiday weekend but after me playing naïve Rob stated that doesn't matter and we chatted about the design.

Rob mentioned that he could save me money by using AstroTurf and that he could hire plants instead of buying them, we also took a tour about the studio and got a plan in place.

Saturday morning came and Rob with a colleague arrived at the studio to begin set building. As usual with television shoots I had completely changed the design and Rob was working of some basic drawings I had created the night before, I had even brought a lot of material to create the garden set. Rob being well equipped stated that the material I brought wouldn't work and thankfully he was well prepared with back up material that I didn't even originally need, which was amazing.

Over all Rob was great and saved me a lot of money, he brought material I didn't ask for but could see I needed and had every tool to hand. I would recommend him to anyone and would use him again for the next project and recommend him for any garden or set building work.
