Hi Lucy

Robert Vickers

Robert came recommended to us as we were in need of a reliable landscape gardener who could help us make the garden more usable for both adults and our children.

He was more than happy to come round and discuss our requirements at length and offer ideas and alternatives to what we already had.

Within days we had a plan and a costing breakdown which I was very impressed with indeed. I had asked a couple of other people for quotes but no body came back with a written costing for the job. They were all verbal and also seemed to take a lot of time. It was only after chasing the quotes that they actually gave me the figure.

Robert was happy to tweak this plan and once we were happy we agreed a start date.

As agreed Robert turned up on the date specified with his team.

They were all very friendly and polite. The team worked extremely hard and managed to get further than I ever imagined even after one day.

I must also say that they were extremely tidy and cleaned up after themselves daily. (I am usually the one clearing up at the end of the day after workmen !)

The work was completed in the specified timescale and within budget. We are extremely happy with the garden and patio now, thanks to Robert.

We recommended him to a good friend of ours whom has had some work done already . We would have no issues in recommending him again to anybody we know.

Thanks Robert ,you are a star !
